BLOG ...AND ALL THAT JAZZ

20 JULY 2012

We offer warmest congratulations to our former colleague Janna van Hasselt who has been awarded a Fulbright New Zealand General Graduate Award to study at the School of the Art Institute of Chicago.

There she will complete a Master of Fine Art degree majoring in Printmedia. Curiously the fact that she used to work part-time in the Christchurch Art Gallery shop does not appear in the official Fulbright media release.

Of the SAIC Janna says: 'I chose it because it offers one of the top graduate fine art programmes in the US, and their printmaking facilities are extensive. They strongly encourage interdisciplinary study, so I will be able to continue integrating ceramics and painting in with my printmaking practice. I have to admit that Claes Oldenberg and Joan Mitchell being two of their alumni also helped to cement my decision!'

Amongst the happiest purchases I have made for the Gallery's artist book collection is her book *Parade*, a feast for the eyes and an exquisite physical object. The photograph below by no means does it justice
